SELECTMEN'S MEETING

Business was transacted by Chairman William Hubbard at the Tuesday, March 2nd, session. Selectmen R. William Blasdale and Donald Linhares were not present because of business commitments which took them out of town.

Mr. Hubbard met with Shellfish Warden Joseph Almada very briefly. He discussed the minibus and lunch program for the seniors with Domingo Sylvia and then proceeded with the routine business of the agenda.

Youth Proposals

The Mattapoisett Youth Committee, headed by Girard F. Oliva, met on March 2nd to discuss the problem of a hangout for young boys. In a report to Mattapoisett Selectmen the Committee summed up their discussion with the following conclusion: They feel that the community must solve the problem but on a long range basis and propose the following resolutions: (In summary), 1) There should be a coordinated unit headed by a salaried and qualified person to direct all youth functions (summer beach recreational program, Sports & Athletic Committee and Youth Committee). 2) A concerted effort to plan and develop the land donated for a town park. 3) Explore the feasibility of establishing a Boys' Club sponsored by local organizations.

PROGRAMS AT SCHOOLS

In a joint cooperative venture, Mattapoisett Land Trust, Inc. and the Mattapoisett Conservation Commission will assist local and regional schools in observance of the 39th annual National Wildlife Week, March 14-20. Sponsored by National Wildlife Federation, the theme of this year's Wildlife Week is "Save Our Wetlands". The Land Trust has arranged for Robert Lucas, Director of the Children's Museum in Dartmouth, to give a 45-minute talk and slide program to children in the 4th and 6th grades. Children at Center and Old Hammondtown Schools will also see a Mass. Audubon Society color film on marsh life. Both programs will stress the importance of marshes for people as well as wildlife.

The Conservation Commission is planning an ambitious schedule of activities at ORR Junior and Senior High Schools involving film showings, guest speakers (to be announced) and special classroom projects. A variety of pertinent films made available

by a grant of funds from the School Administration will be shown throughout the week. A. D. Tinkham, chairman of the Conservation Commission, will supervise art students at ORRHS in the design of a wall mural for the main lobby depicting wetland habitat. A debate on the role of conservation in land use planning will climax a week-long program of special events. Participants from Marion, Rochester and Mattapoisett will represent the differing viewpoints of the contractor-developer, the Conservation Commission etc.

As an object lesson in learning to live in harmony with the natural world, 7th graders will consider how to select a building site, construct a house and live on the land without harming their environment. Assisting with this project will be Kent Taylor, hydrogeologist from SERPD, and David W. Hewitt of the Conservation Commission. Robert Lucas, Director of the Children's Museum, is also scheduled to lead a nature walk to a nearby marsh area.

The Pilgrims' first winter didn't offer much to be thankful for.

In the winter of 1620, a small town began to grow on the shores of Plymouth.

But as it grew, its population declined. More than half of the Pilgrims died, sometimes at the rate of two and three a day.

It was the toughest of winters. It was a season of starvation where the best meal that could be offered the sick was some codfish and spring water.

But our forefathers perservered. The following October, twenty acres of corn ripened beautifully, and the Pilgrims were partakers of plenty.

Because of a unique group of men and women who were committed to Plymouth back in 1620, we won't have to face that kind of winter in our lifetime.

The tradition of that special commitment is alive in the people today who have inherited Plymouth Colony. And it's alive at Plymouth Savings, Plymouth County's largest bank.

You might not be out to create a village in the wilderness, but you've probably got some pretty big things planned for your life. Plymouth Savings wants to work with you to make them all realities.

The big things happen here...

the BEE-utiful BANK.

There are lots of nice things we could say about ourselves.

Like unexcelled. Or unequalled. Maybe unsurpassed. Or even unmatched.

And, happy to say, lots of folks who bank with us would agree. They've long since discovered what real convenience and real service are when it comes time to bank.

But, honestly now, we'd rather let them do our talking for us. Let them say the beautiful things.

Of course, we'd like you to find out for yourself what makes us BEE-utiful. And then you could say BEE-utiful things, too.

"Mini-Town Meeting"

REP. MACKENZIE TO BE AT TOWN HALL

Representative Charles A. MacKenzie, Jr. of Wareham has announced that he will report to the citizens of Mattapoisett at a "Mini-Town Meeting" at the Conference Room of the Mattapoisett Town Hall on Thursday, March 18th. A brief report on the Town of Mattapoisett will be followed by questions and answers from the floor on any subject concerning the State legislature.

The announcement came in letters to the Board of Selectmen and Finance Committee of Mattapoisett. The letters stated that most of the meeting will be devoted to answering voters' questions "just as any Town Official would answer the voters at a Town Meeting".

"This is the second meeting of its kind in the 7th Plymouth District," said Representative MacKenzie. A similar meeting was held in Carver recently. The meeting is being held prior to Town Meeting in order to help the voters realize the far-reaching effect that State action has on their Town Meeting decisions, according to MacKenzie.

The meeting will start at 8:00 P.M. and refreshments will be served. The public is invited.

VOTERS

You have a choice.

The major problems facing our town are centered on one issue - growth.

Growth is a reality. Uncontrolled growth is a cancer. Planned growth is healthy. We have the ability to choose which of the two conditions we want.

Growth is directly related to the environment. As a conservationist, I am dedicated to seeking a balance between man and nature which will be beneficial to both.

A conservationist's point of view is needed on the Board of Selectmen in order to provide a balance of opinion in all decision making.

I believe I am the best qualified candidate to fulfill this need.

I am current Chairman of the Conservation Commission, past Chairman of the Coastal Sub-Area of the Advisory Council on Water Quality, and Selectmen's commisioner to Southeastern Regional Planning and Economic Development District.

APPLICANTS FOR ADVISORY BOARD

The newly formed Steering Committee is in the process of recruiting applicants to serve on an Advisory Board soon to be established for the New Bedford Community Service Area.

An advisory board to a local welfare office can play a number of different roles and address itself to a variety of different tasks.

As members of the community who represent the various interests and groups within the locality served by the welfare office sit down on a monthly basis with the director of welfare, communication linkages that might not have existed before are therefore established. Problems seen as service gaps sometimes can be resolved through better coordination of existing services within the community or through better and more imaginative utilization of

and more imaginative utilization of the resources of a total community.

Although the advisory board whose members are approved by the Governor has no formal power, its ability to affect services and changes in its local community is limited only by the imagination, energy and the time which its members are willing to commit to the needs of poor persons whether they be the blind, aged, disabled, or families forced to seek assistance through the Department.

Any person interested in serving on this advisory board should please contact Mrs. Belli at 997-1561 or Mrs. Wedge at 996-3741 or 996-3742 between the hours of 9 A.M. and 5 P.M. for more information.

OPEN LETTER TO THE RESIDENTS OF MATTAPOISETT:

I am announcing my candidacy for re-election to the office of Selectman of the Town of Mattapoisett. In announcing my candidacy, I thank each of you for your support over the past three years. Having completed three years as a Selectman, and having devoted a lot of time and work to insure good town government, I would like to ask for your support in the coming election on April 7, 1976.

My tenure on the Board of Selectmen has been through a period of change in Mattapoisett. I have attempted to guide that change with a constant awareness of our current problems as well as our future needs. I have listened to all sides of public opinion and influenced the changes based on that input from each of you.

I would like to continue serving the people of Mattapoisett in this same manner. We will continue to meet the challenge of change as Mattapoisett grows in size and complexity. We must not, however, lose sight of the reasons why we all participate in making our town a better place in which to live.

We must consider each and every current need of our town's population, young or old, single or married; all contribute to the single purpose of insuring the orderly growth of Mattapoisett. We must, also, look long range down the road and be confident that our actions will hold up under the test of time.

It has been a pleasure serving the people of the town as a Selectman. I know many of you individually with your concerns, as well as collectively as a group. We have not always agreed, but we have resolved our problems and will continue to do so into the future.

I look forward to meeting each and every one of you and to continue our exchange of ideas in the process of building Mattapoisett's future. I again ask for the support of all the voters in Mattapoisett so that I may again serve as a Selectman to continue to guide the change to make Mattapoisett a better place in which to live.

Sincerely yours,

William F. Hubbard
